NEW FITNESS & ATHLETIC CENTER ADDITION

WILLIAMS GYMNASIUM AT SWEET BRIAR COLLEGE

IN ASSOCIATION WITH CRADDOCK-CUNNINGHAM ARCHITECTURAL PARTNERS

A new Fitness and Athletics Center was built for Sweet Briar College, to serve as a social and wellness center for its students and the community. An elevated running track suspended above a multipurpose area with Teraflex flooring was included. Multiple courts can accommodate tennis, volleyball, basketball, indoor lacrosse and soccer. The building houses Sweet Briar's Athletic Hall of Fame, two separate racquet ball and squash courts, a Bistro, a 55-seat theater and support offices. The facility uses a geothermal HVAC system, Energy Star-rated roof, energy-efficient windows, maximum insulation and skylights, as well as occupancy sensors for lights and low-flow plumbing fixtures.
