SWEET BRIAR BARN FOR ARTISTS' STUDIOS

IN ASSOCIATION WITH DAVID B. GILES, AIA

NATIONAL REGISTER OF HISTORIC PLACES, SWEET BRIAR COLLEGE DISTRICT - #95000240

This adaptive reuse project involved the renovation of a 4,900 SF existing dairy barn on the Sweet Briar College campus. The building now houses several studio arts disciplines; these departments' previous spaces were converted into a new dance studio and theater rehearsal area, and new fitness facilities were added. A photography studio and darkroom are also located in the barn. Oak and chestnut floors were milled from the barn's original joists, and high ceilings and natural light provide a spacious feel.
